Previous Trial Effect

Mohamad Hosein Faramarzi
Dr.Ali Ghazizadeh

SNr – All of trials
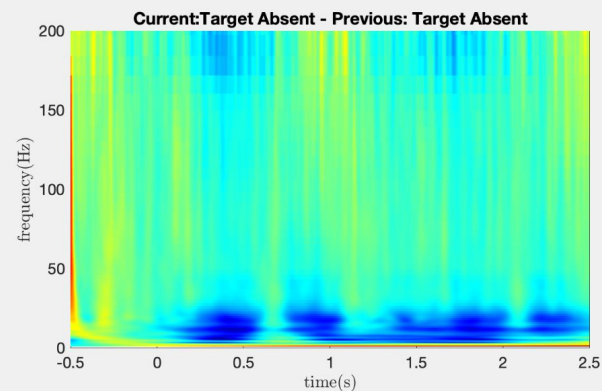

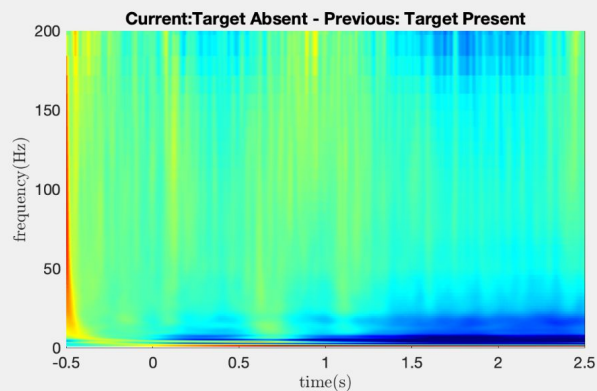

# SNr – Current trial = TP / Efficient-Inefficient separated

Efficient

**Inefficient**

SNr – Current trial = TA / Efficient-Inefficient separated

Efficient

Inefficient

Can it be effect of trial numbers? – SNr

Based on these numbers for trials in each conditions probably not!

Condition	Current=TP Pre=TP	Current=TP Pre=TA	Current=TA Pre=TP	Current=TA Pre=TA
Number of Trials	6067	6233	6136	5708

vlPFC – All of trials

vlPFC – Current trial = TP / Efficient-Inefficient separated
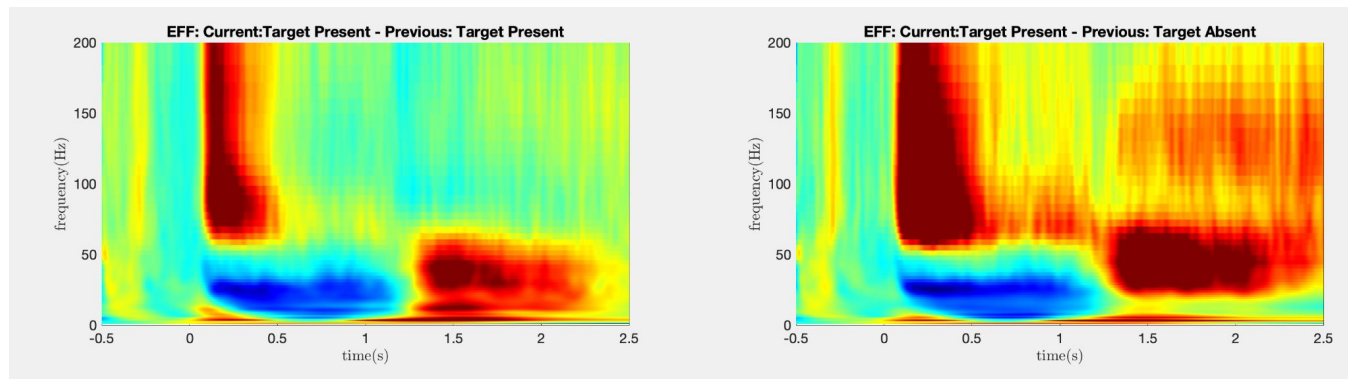

Efficient

Inefficient

# vlPFC – Current trial = TA / Efficient-Inefficient separated
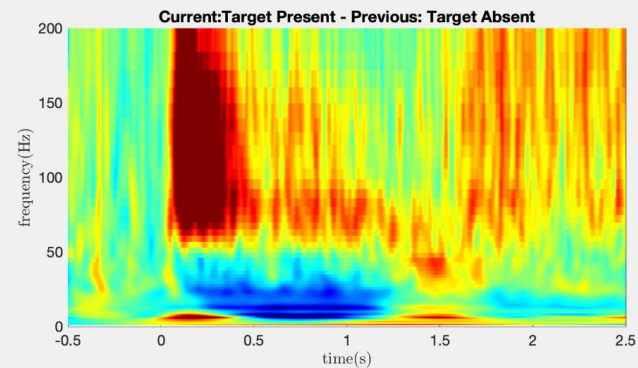

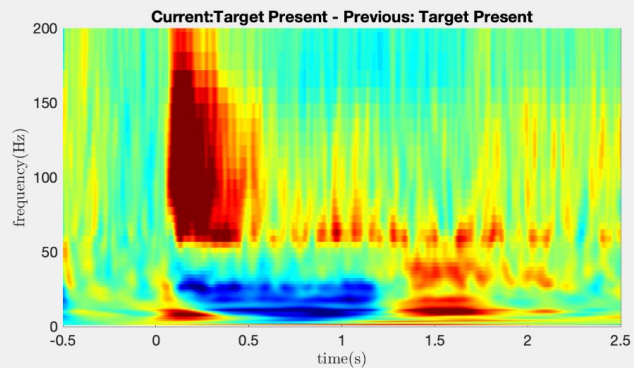

Efficient

Inefficient

Can it be effect of trial numbers? – vlPFC

Based on these numbers for trials in each conditions, probably not!

| Condition	Current=TP Pre=TP	Current=TP Pre=TA	Current=TA Pre=TP	Current=TA Pre=TA
Number of Trials	20383	21888	20542	20474
